

The Rx: Vote Campaign: Invitation to Clinics

Dear _____
CEO, Community Health Center
Anytown, USA

I am writing to invite _____ to officially join the **Rx: Vote Campaign as a Rx: Vote Campaign Health Center or Clinic**. Founded by the nonpartisan National Physicians Alliance in partnership with several prominent national organizations, the Rx: Vote Campaign is a groundbreaking campaign to empower health workers and volunteers to increase civic participation among traditionally underrepresented patients in community clinics and health centers through high-visibility voter registration, get-out-the-vote and voter health literacy efforts. We hope that _____ will consider joining as a Rx: Vote Campaign Health Center or Clinic.

Community health centers, free clinics, academic medical centers and hospitals are uniquely positioned to empower underserved patients to participate in the democratic process and advocate for vital health reform. The Rx: Vote Campaign can only be as strong as the health centers and clinics that commit to joining this historic effort to increase voter turnout among traditionally underrepresented patients. We hope _____ will endorse the Rx: Vote Campaign Principles and sign on to the campaign by becoming a Campaign Health Center or Clinic.

Endorsements of Rx: Vote Campaign Health Centers or Clinics:

- Endorse Rx: Vote Campaign mission and register your clinic at www.RxVote.com
- Identify one committed staff member as your Rx: Vote Campaign Clinic Organizer
- Work with the Rx: Vote Campaign to identify voter registration volunteers at your clinic
- Review relevant state information, including registration deadlines, at www.RxVote.com
- Print “Your Vote, Your Health” Toolkit for clinic.
- If possible, identify one internet-connected computer for online voter registration

I hope that you will accept our invitation to join this exciting and vital effort. Please let me know when you are free to talk and if you have any questions.
